Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 13 January 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the first and second banks interleaved in each row in an alternating fashion as recited in claims 1-12 and 14-60 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-12 and 14-60 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

It not understood the feature of "the first and second banks interleaved in each row in **an alternating fashion**" as recited in claims 1-12 and 14-60 since it is not seen in the drawings of the present invention. Even if newly amended Fig. 3 of the present

Art Unit: 2827

invention does show that bank 0 and bank 1 are separately connected in each row through the dash lines only which does not clearly seen to show the feature of "the first and second banks interleaved in each row in **an alternating fashion**" as recited in claims 1-12 and 14-60 since it is not seen in the drawings of the present invention. Furthermore, newly amended Fig. 3 still does not show bank 0 and bank 1, therefore, all banks are seen to be the same.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-12 and 14-60 are, insofar as understood, rejected under 35 U.S.C. 103(a) as being unpatentable over Applicant's Fig. 1 Prior Art.

Applicant's Fig. 1 Prior Art discloses a memory device comprising:

- a plurality of memory banks BANK 0 to BANK n-1 each including a plurality of memory cores;
- a plurality of shared sense amplifiers SENSE AMPS;
- wherein: the memory cores from two of different adjacent ones of memory banks are interconnected with each other along the row direction (horizontal axis) via a shared sense amplifier;
- column decoders 110;
- column decoder conductors 160 traverse the memory cores in the horizontal strip;

as shown in Fig. 2, sense nodes 232 and 234;
obviously, bank 0 and bank 1 in Fig. 1 Prior Art can be read as the bank 2 and bank 3, respectively, and so on in newly amended Fig. 3; and the memory device in Applicant's Fig. 1 Prior Art can be utilized in a computer system which includes a processor as well known in the art.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Response to Arguments

7. Applicant's arguments filed 1/13/05 have been fully considered but they are not persuasive because of the following reasons:

The examiner will provide the Interview Summary of the telephone interview of

6/24/04 in this Office Action.

The newly amended Fig. 3 is not overcome the objection to the drawings and all rejections under 112, first paragraph, and 35 USC 103(a) for the reasons as set forth above.

Accordingly, this Office action is made Final.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to TRONG PHAN whose telephone number is (571) 272-1794. The examiner can normally be reached on M-F (8:30-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Nelms can be reached on (571)272-1787. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
